Texas Commercial Energy Efficiency Programs Overview

EL PASO ELECTRIC

NEARLY \$1 MILLION IN INCENTIVES AVAILABLE

El Paso Electric helps customers identify energy-saving opportunities on new construction and/or retrofit projects.

NEW CONSTRUCTION AND RETROFIT PROJECTS

WHICH PROGRAM IS RIGHT FOR YOU?

- Small Commercial Solutions Program is designed to help customers with an average annual peak demand of 100 kW or less at any one facility or 250 kW or less at all their facilities. This would include small retail locations and small office buildings.
- Large Commercial Solutions Program is designed to help customers with a demand that is greater than or equal to 100 kW at any one facility or a total demand of greater than or equal to 250 kW at all facilities. This would include many manufacturing facilities and large office buildings.
- SCORE® Program provides schools and city and county governments with incentives and technical assistance to reduce energy spending.
- Custom M&V projects—contact EPE for details at energyefficiency@epelectric.com

WHAT PROJECTS ARE ELIGIBLE?

Qualifying projects for Small, Large and SCORE Commercial Solutions include:

- New Construction Projects
- Custom M&V Projects
- Lighting Retrofits
- Lighting and Miscellaneous Controls
- ENERGY STAR® Certified Pool Pumps
- ENERGY STAR® Certified Commercial Food Service Equipment
- Cool Roof by the Cool Roof Rating Council (CRRC)
- Refrigeration Measures
- Building Envelope Measures
- HVAC Installations & System Upgrades

HELP FOR EVERY STEP OF THE WAY

El Paso Electric provides valuable technical assistance to help identify and evaluate energy-saving opportunities. Communications support is available to publicize your energy efficiency accomplishments in the communities you serve.

COMMUNITY FINANCIAL IMPACT

The El Paso Electric Small Commercial and Large Commercial Solutions Programs have achieved \$187 million in total savings for local businesses. The SCORE Program has provided energy efficiency savings equivalent to 1,174 teachers and 1,430,888 books for students.
