## Texas Commercial HVAC Incentives

## EL PASO ELECTRIC

## NEARLY \$1 MILLION IN INCENTIVES AVAILABLE

HVAC systems can account for 35%<sup>1</sup> of electrical consumption in a commercial building annually. Are you building a brand new facility? Do you have an old HVAC unit that needs to be replaced?

El Paso Electric is here to help customers identify energy-saving opportunities, as well as offset the initial investment costs of HVAC system upgrades on new construction, custom M&V, and retrofit HVAC projects.

## DON'T WAIT TO REPLACE YOUR HVAC SYSTEM

Benefits of timing the installation of a new HVAC include:

- Operating costs – New HVAC systems may seem costly, but compare the savings in energy costs.
- Maintenance costs – Frequent shutdowns and repairs? It may be time to take a closer look at what it's really costing you.
- Available incentives – Consider early retirement upgrades for increased incentives and start saving today.
- Custom M&V projects – Contact EPE for details at [energyefficiency@epelectric.com](mailto:energyefficiency@epelectric.com)
