

El Paso Electric SCORE® Program Executive Summary

1,059 teachers or 1,291,478 books for students*

That's the impact the SCORE Program has had on El Paso Electric's (EPE's) Texas service territory. The SCORE Program is directed specifically at schools and local governments to help them reduce operating costs and save energy.

Next to payroll, energy is often the biggest line item on a school's budget. EPE designed the SCORE Program to give schools and local governments the resources necessary to reduce energy spending and allow more of their budgets to go to students, teachers and the local community.

The SCORE Program provides you with the resources to identify energy efficiency opportunities and convert them into savings. EPE has partnered with CLEAResult to administer the Program. No products or services are sold through the Program. Based on your individual needs, the Program will provide customized assistance such as:

- **INCENTIVES** for every kW saved on qualifying projects, such as:
 - New Construction Projects
 - Custom M&V Projects
 - Lighting Retrofits
 - Lighting and Miscellaneous Controls
 - HVAC Installs & System Upgrades
 - ENERGY STAR® Certified Pool Pumps
 - ENERGY STAR Certified
 - Commercial Food Service Equipment
 - Cool Roof Rating Council (CRRC)
Listed Cool Roofs
 - Refrigeration Measures
 - Building Envelope Measures
- **TECHNICAL ASSISTANCE** to help identify and evaluate energy efficiency opportunities
- **COMMUNICATIONS SUPPORT** to help publicize your energy efficiency accomplishments
- **ENERGY PERFORMANCE BENCHMARKING** to review and compare energy performance and to gauge the energy efficiency of your facilities
- **ENERGY MASTER PLANNING WORKSHOPS** to evaluate benchmarking data, establish achievable goals and prioritize efficiency efforts

Please contact EPE or CLEAResult should you have any questions or need additional information.
We look forward to helping your organization save energy and money.
